Abstract

English is one of the most important languages which have played role in the process of globalization and knowledge explosion. It is the most common means of communication throughout the globe. This is why it is termed as Link language, Global language as well as Lingua Franca. In Indian context it is treated as ESL (English as a Second Language). Use of English language has become vital for better learning and earning. Therefore, it is necessary to teach English and develop English language skills among the students from school level. The government, NGOs and educational institutions are working at various levels and taking measures to ensure better ELT (English Language Teaching) and developing English language skills among the students. To teach English and develop English language skills various approaches and methods are in use in our country. But most of them are traditional, less interesting, ineffective as well as less motivating. So, it is necessary to use modern approaches and tools of ICT (Information and Communication Technology) to develop better understanding and acquisition of basic skills i.e. LSRW (Listening, Speaking, Reading and Writing) of English language among the students at school level. ICT has a lot of things to offer to both teachers and students for the enhancement of their vocabulary and improvement of English language skills. Now a day's ICT tools and approaches are being used widely due to their convenience, omnipresence, effectiveness and being economic. Some of these approaches, facilities and tools are CAI (Computer Assisted Learning), CALA (Computer Assisted Language Assessment), CALI (Computer Assisted Language Instruction), CALL (Computer Assisted Language Learning), MALL (Mobile Assisted Language Learning), TELL (Technology Enhanced Language Learning), Blogs, Wiki, e-mail facility, Digital libraries, multimedia, mobile learning, free and open source software and social media, MOOCs, Virtual classrooms, documentaries, Digital storytelling, Mobile Applications, i-Pads, Digital Notebooks, Tablets, Smart Phones, Recorded audio- video materials, Online spoken tutorials, Digital pronunciation dictionaries etc. Modern studies and researches show positive results of integration of ICT in the field of ELT and development of English language skills. These facilities have paved the way of individualized learning and provided freedom of learning anytime, anywhere according to needs and convenience of the learners. So, we should take proper step to integrate ICT in the field of ELT to make the learners well versed in English language skills.

Uses of ICT for an ELT teacher

we cannot think of better educational environment without a better teacher. In earlier times the teacher was the focal point of education, but now the role of teachers has changed a lot. He is considered as a guide and friend of students who helps in learning, does not provides knowledge. To teach better a teacher need to be update with the changes. For this ICT helps a lot. ICT can be useful for a teacher in the following ways.

1. It is helpful in the professional development of the teachers. A teacher can learn various language skills with the help of information and communication technologies. He can do various certification programmes in English language teaching run by the famous educational institutions like Cambridge University, British Council etc. These programmes help in enhancing his capacity to teach English language and to make his subject content easy, economic and more understandable.
2. A teacher can increase his domain of Knowledge English language with the help of e-journals, e-magazines and e-library that can be achieved only through the use of ICT. He can also participate in discussions and conferences with the experts of his English language teaching to improve his knowledge and skills ELT through audio and video conferencing.
3. ICT helps a teacher to learn innovative methods of teaching. He can work with the students on various project and assignments. It also helps him in providing teaching contents, home works etc.
4. He may participate in various in-service training programmes and workshops which are essential for his professional development with the help of information and communication technologies.
5. ICT helps a teacher to guide his students about the English language learning materials available on internet, e-books, e-journals, e-magazines and social sites like linked-in which are helpful in better learning of English language skills.
6. ICT also helps him framing curriculum of English language learning. He can study curriculums ELT of different countries to study their pros and cons, challenges as well as sociological and psychological issues related to English language learners. All these things helps him in framing a curriculum that leads to achieve the aims and objectives of English language teaching.

Limitations of ICT tools

Though ICT tools are very helpful in the teaching and learning of English language, still these tools have some limitations. Some of the limitations are discussed below:-

1. Often student fail to learn the targeted objectives of the English language teaching.
2. Due to freedom of time and space often students become careless about their targets and indulge themselves in meaningless works.
3. Repeated use of recorded programmes creates boredom in the students that leads to the problem of indiscipline in the classroom.
4. Most of the times students remain passive and inactive in the teaching learning process because they get less opportunities to participate actively in the teaching learning process.

5. The use of ICT tools needs technically trained teachers that lacks and create problems in the TLP.

From the above discussions it is clear that ICT tools have changed the paradigm of English language teaching learning process. So it is essential for a teacher to be familiar with modern ICT tools and use it properly to achieve the aims of English language teaching.
